Why work with TopForms?

TopForms is a concrete countertop fabricator with an extensive portfolio of quality work.

Our professional team works closely with each client to create a personal expression of their style. We are experts in color formulation and matching, offering you the ability to achieve exactly the look you're dreaming about.

TopForms countertops are engineered to be extremely stain-resistant and very low maintenance. You can be confident that your countertops will remain beautiful for years to come.

Why choose concrete countertops?

Concrete countertops are the most unique, personal countertop option because they are made from scratch just for you. To determine whether concrete is right for you, ask yourself these questions:

- Do I feel that granite is too shiny, too formal, too common?
- Do I feel that synthetic solid surface materials look and feel like plastic?
- Do I want a color or visual texture that's not available with other countertop materials?
- Do I want something that looks natural and has character?
- Do I appreciate high-quality, hand-crafted items?
- Do I want something unique and personalized?

How do I get started?

Explore the TopForms website for design ideas from our portfolio and detailed information on the process of creating custom concrete countertops.

Contact TopForms today, and get started on realizing your dream countertops!
